

Chapter 7 Exercises

1. **Animals:**

Write an app that has a list of your favorite animals (at least five, created in the Blocks Editor). Allow the user of your app to insert animals at the beginning of the list. Display the list after each insert. Be sure to display each animal with their associated index. (Hint: Use the block below as a guide)

2. **Animals Modification 1:**

Modify the Animals app in to allow the user to add animals to the list.

3. **Animals Modification 2**

Modify the Animals App in Exercise 2 to allow the user to remove animals.

4. **Animals Modification 3**

Modify the Animals App in Exercise 2 to allow the user to replace animals.
