

Chapter 1 Projects

1. Presidential Trivia App

Create the app shown below. The app initially appears as the image on the left, displaying the question *Who was the 4th U.S. president?* When the user clicks the *Show Answer* button, the answer is displayed as shown in the image on the right. Create a question for the 14th, 24th and 34th presidents.

2. Language Translator

Look at the following list of French words and their meanings.

French	English
Bonjour	Hello
Ecole	School
Maitre	Teacher

Create an app that translates the French words to English. The app's screen should have three buttons, one for each French word. When the user clicks a button, the application should display the English translation in a Label component.
