Computer Project Presentation

Now that you have decided on two computers to compare, you will create a PowerPoint presentation showcasing both options.

You will need to create a slide for each of the following options or component. Include a picture and description for each component.

Computer Name and picture
One picture for all of the following
Processor (CPU) speed
Operating System
Memory (RAM)
Hard Drive (storage)
Optical Drive
Monitor or Screen Size
Video Card
Sound Card
Wireless capability
Input ports and drives
Webcam
Battery
Cost
