

HTML Text Editor Assignment

Right Click, Save then Open the file HTML Text Editor. Using the HTML Tags listed in the file, fill out the HTML document so that you use every HTML Tag listed. List the information about the Tag. You can use the Basic HTML Tags file under Lessons for help.

After you complete the file, save it as "Last Name.html." Next, open you're your Coffeecup website builder program, go to File Menu and open the file you just saved. Run the file and see how it looks.
