

On Monday, August 31st, Sydney picked up her first paycheck.

1) On Tuesday, September 1, Sydney stopped by her bank and deposited \$125.00 of her paycheck in her checking account, \$30 in her savings account and took the remainder in cash. Enter these amounts in her financial records on page 3 and calculate the balances.

2) After depositing her check at the bank, she stopped at a gas station near her house. Since she had just gotten paid, she decided to fill her tank — something she rarely does. Gas was \$2.48 a gallon and it took 10.3 gallons to fill her tank. She used her debit card to pay for the gas.

To the nearest cent, how much did she spend on gas? \$ _____

She also went in the quick shop at the gas station and bought a Diet Pepsi for \$1.69 and a bag of chips for \$.87 (plus a 8.25% sales tax). She paid for them with cash.

What was the total cost of the Diet Pepsi and chips? \$ _____

Enter the amounts she spent at the gas station in her financial records and calculate the balances.

3) On Wednesday, September 2nd, Sydney went with a two of her friends to Smashburger. Use the menu to calculate the amount they each spent including a 8.25% sales tax.

Sydney ordered a Classic Smash, french fries and a soft drink. She spent \$ _____

Hannah ordered a Avocado Club Chicken, Smashfries and a milkshake. She spent \$ _____

Rebecca ordered a Baja Cobb Salad and a milkshake. She spent \$ _____

Sydney paid for her food with cash. Enter the amount in her financial records and calculate the balance.
