

Menu Bar Restaurant Part 2

Create the EventHandler for each menu item.

- Right Click Soup
- Choose Add event handler
- Choose action
- Choose actionPerformed
- Use the code below to make the event work when you choose an item.
- Repeat for all other items

```
JMenuItem mntmSoup = new JMenuItem("Soup");  
mntmSoup.addActionListener(new ActionListener() {
```

```
    public void actionPerformed(ActionEvent e) {  
        textArea.append("You chose soup as a starter" + "\n");  
    }  
});  
mnStarters.add(mntmSoup);
```
