

Menu Order Form

First, create the following Form using the correct variables (see below). Next, create the necessary code to make the form work. Start with a JFrame. Your JFrame should be about 600 x 400. `setBounds(100, 100, 600, 400)` **Use Absolute Layout for the ContentPane**

Use the following variables:

- txtName
- radioBurrito
- radioBowl
- radioTaco
- radioChicken
- radioSteak
- radioShrimp
- checkMild
- checkMedium
- checkHot
- txtInstructions
- btnSubmit
- btnReset
- btnExit
- textPaneOrder

← **RadioButtonGroup**

← **RadioButtonGroup**

← **JCheckBoxes**

To create a **RadioButtonGroup**.

- 1) Hold the Control Key
- 2) Select all 3 RadioButtons
- 3) Right Click
- 4) Go to SetButtonGroup
- 5) Select New Standard
