

Simple Calculator:

Double click the Add Button and add or modify it with the following code:

```
JButton btnAdd = new JButton("Add");
btnAdd.addActionListener(new ActionListener() {
    public void actionPerformed(ActionEvent arg0) {

        double num1, num2, ans;

        try {
            num1 = Double.parseDouble(textFirst.getText());
            num2 = Double.parseDouble(textSecond.getText());

            ans = num1 + num2;
            textAnswer.setText(Double.toString(ans));
        } catch (Exception e1) {
            JOptionPane.showMessageDialog(null, "Please Enter a Valid Number");
        }
    }
});
btnAdd.setBounds(95, 116, 109, 23);
frame.getContentPane().add(btnAdd);
```
