

```
public class JavaApplication1 {  
  
    public static void main(String[] args) {  
  
        String longStr = "This could have been " +  
        "a very long line that would have " +  
        "wrapped around. But string concatenation " +  
        "prevents this.";  
        System.out.println(longStr);  
  
    }  
}
```
